## PROFILE

Software Engineer with 14 years of personal experience and 10 years of professional expertise, currently serving as Head of Engineering at Polymatiks

## WORK EXPERIENCE

**Head of Engineering** Aug, 22 - Present  
Polymatiks LTD

Oversee the entire product development lifecycle, drive innovation through new platform functionalities, and ensure alignment between technological advancements and business goals

**Head of Engineering** Oct, 20 - Aug, 22  
Stoom - eCommerce Solutions

Oversee development teams, define architectural strategies, select tools and frameworks, and make key technical decisions to drive the company's technological direction

**Software Engineer** May, 19 - Oct, 20  
Stoom - eCommerce Solutions

Led the transformative transition of the platform from a monolithic to a microservices architecture, driving scalability and innovation

**Backend Developer** Dec, 15 - May, 19  
Stoom - eCommerce Solutions

Started my full-time career by contributing to numerous e-commerce projects using the Java Spring Boot framework. Gained extensive experience in Agile Scrum methodologies, collaborative teamwork, CI/CD workflows, and DevOps culture. Eventually progressed to managing teams of 8-12 developers

**Fullstack Web Developer** Jul, 10 - Dec, 15  
Contractor

Begun alongside my undergraduate studies, I worked on various web projects utilizing the Python Django framework. Frequently working independently, I developed strong sysadmin skills, managing Linux servers and services on Amazon AWS over the years

## EXTRA-CURRICULAR ACTIVITIES

**Volunteer Educator** Feb, 20 - Present  
Montes Claros - MG

Teach technology to children and teenagers in public schools, using programming logic and hardware tools to inspire and encourage interest in the field.
